q3a Choose Company A or B

In this situtation, assume your community has a parcel of land available for a new business. Two very similar computer design companies have asked to move their business to this land. Both companies have patented processes and guaranteed long-term contracts, but do not expect to grow.

Both companies pay their employees about the same. Company A would come now with 10 employees. The other, Company B, would come in five years with 16 employees.

The land cannot accommodate both companies, so your community must choose between 10 new employees now or 16 new employees in five years. Neither you nor anyone in your family would work for either company.

If you had your choice of alternatives, which would you choose . .

%	N	VALUE	LABEL
86.5	847	1	Company A, with 10 employees today
8.8	86	3	Company B, with 16 employees in five years -or-
4.7	46	5	NEITHER, DO NOT WANT EITHER COMPANY

q4a Park Bond: \$125,000 or \$200,000

In this situation, assume an anonymous donor has made a gift to the park board in your community. The entire donation must be used to improve the facilities and landscaping in an existing community park.

The gift is a secured bond that will mature in five years. The bond can be sold now for \$125,000 or the park board can wait five years until the bond is fully mature, at which time it will be worth \$200,000.

The Park Board must therefore choose between \$125,000 now, or \$200,000 in five years.

Which option would you prefer (\$125,000 now or \$200,000 in five years?)

term54c Advantages Term Limits

In Michigan, a person may serve no more than 6 years in the Michigan House of Representatives and no more than 8 years in the Michigan Senate. The most a person can serve in the Michigan Legislature is 14 years that is 6 in house and 8 in the senate.

Recently, there has been much discussion about the advantages and disadvantages of having term limits.

What do you think are some of the advantages of having term limits?

elect1 Legislative Districts

In Michigan, legislative districts are drawn by elected officials.
This practice sometimes favors one political party over another.

A proposal has been suggested to have legislative districts drawn
by an independent, non-partisan commission. The commission would be
charged with drawing districts that would not favor one political party
over another.

Would you say you strongly favor, somewhat favor, somewhat oppose,
or strongly oppose this proposal?

clb1 Racial Discrimination Employment Opportunities

We are very interested in the views people have about different groups of people and people of different backgrounds and cultures.

I'm going to read you several statements that represent some people's views on this topic. As I read each one, please tell me how strongly you agree or disagree with the statement.

Even today, racial discrimination significantly limits the employment opportunities of blacks or African Americans.

Would you say you strongly agree, somewhat agree, somewhat disagree, or strongly disagree with the statement.
